

Bluegrass State Skills
Corporation
Annual Report
Fiscal Year 2011-12

Cabinet for Economic Development

INTRODUCTION

This report reflects the activities of the Bluegrass State Skills Corporation (BSSC) for fiscal year 2011-12 (July 1, 2011-June 30, 2012). This annual report contains information concerning the BSSC's purpose, a listing of all skills training projects approved during the period, summary of expenditures, and a listing of tax credit final approvals. The annual report of the BSSC is required pursuant to KRS 154.12-208.

The BSSC has built a strong reputation for meeting and exceeding industry needs for customized, flexible and industry-driven skills training. It achieves this by partnering with other employment and training organizations to tailor a comprehensive program of skills training services for new, expanding and existing companies.

BSSC assists business training needs by:

- Administering and funding Kentucky's customized business and industry-specific training efforts through training agreements for Grant-in-Aid and Skills Training Investment Credit projects that are approved by the BSSC Board of Directors;
- Acting as a broker, by coordinating the resources of providers of skills training and employment services;
- Facilitating the creation of public/private partnerships through education and training programs designed to meet unfilled training needs of individual and multiple-company training projects, or consortia; and
- Administering any special state appropriation for customized business and industry-specific training.

The BSSC is attached to the Cabinet for Economic Development for administrative purposes in recognition of the relationship between economic development and workforce development. An eighteen-member Board of Directors made up of private sector as well as public officials governs the BSSC. Private-sector representatives comprise more than half of the total board membership.

REPORT OF THE CHAIRMAN AND EXECUTIVE DIRECTOR FY 2011-12

The Chairman of the Board of Directors and the Executive Director of the Bluegrass State Skills Corporation (BSSC) present this report as an accurate accounting of the activities of the BSSC. It provides information about the approval of Grant-In-Aid (GIA) and Skills Training Investment Credit (STIC) projects. The report also provides information on the final approval of GIA expenditures, STIC tax credits, and the Metropolitan College Tax Credit (MCTC). This report will demonstrate that the funds provided to the BSSC are used in a manner that improves and promotes the employment opportunities of Kentucky's residents. This is achieved through the GIA, STIC, and MCTC programs administered by the BSSC.

Grant-in-Aid (GIA)

The GIA program provides reimbursement funds for the training of employees of Kentucky's new and expanding companies and for skills upgrade training of employees of Kentucky's existing companies.

Listed below is a summary of the GIA projects approved during FY 2011-12 by the BSSC Board of Directors:

- 156 skills training grants valued at \$8,117,059.94 to provide skills training services to individual companies and training consortia; training 24,381 Kentucky residents at an average cost of \$332.93 per trainee; as follows:
 - ◆ 577 Kentucky residents being trained for new industry at a cost of \$486,125 or \$842.50 per trainee;
 - ◆ 20,309 Kentucky residents being trained for expanding industry at a cost of \$6,004,633.50 or \$295.66 per trainee; and
 - ◆ 3,495 Kentucky residents being trained for existing industry at a cost of \$1,626,301.44 or \$465.32 per trainee.

GIA applications in the amount of \$1,269,248 for 43 companies were received and processed by the BSSC but were not funded due to insufficient funds.

GIA net disbursements for FY 2011-12 totaled \$7,806,626.78 for skills training projects for 130 individual companies and training consortia. The FY 2011-12 disbursements included \$2,904,707.13 expended on FY 2011-12 approved projects and \$4,901,919.65 expended on projects that were approved prior to FY 2011-12.

Skills Training Investment Credit (STIC)

The STIC program provides tax credits to offset a portion of approved costs to support skills upgrade training to companies that have been engaged in a qualified activity within Kentucky for not less than three years.

Listed below is a summary of the STIC projects approved during FY 2011-12 by the BSSC Board of Directors:

- ◆ 34 companies received preliminary approval for investment credits valued at \$2,144,444.04; training 9,441 Kentucky residents at an average cost of \$227.14 per trainee; and
- ◆ 41 companies received final approval of \$1,672,393.86 in tax credits through the STIC program for 8,290 trainees at a cost of \$201.74 per trainee.

By statute, a minimum of 30 percent of companies receiving preliminary approval for tax credits by the BSSC Board of Directors must be high performance companies. In FY 2011-12, approximately 46 percent of the preliminarily approved tax credit applications were for high performance companies.

Special Appropriation

The BSSC also administers a special appropriation of \$10 million for workforce training included in HB 536 which was enacted into law during the 2007 regular legislative session. Working with labor and management at both the Louisville Assembly Plant (LAP) and the Kentucky Truck Plant (KTP), a memorandum of agreement (MOA) with Ford Motor Company was developed and completed on December 10, 2007. The purpose of the MOA was to establish guidelines for the use and disbursement of the special appropriation. At the end of the FY 2011-12, grants in the amount of \$10,000,000 had been approved by the BSSC Board of Directors for both Ford facilities in Louisville and \$8,999,440 had been disbursed.

The MOA also established an employment threshold of 5,299 full-time employees as of June 30, 2012. The actual number of full-time employees at LAP and KTP was 8,123.

Metropolitan College Tax Credit (MCTC)

In addition, per KRS 141.381 enacted in the 2009 regular session, the BSSC was given the authority to approve tax credits on behalf of a qualified tax payer that is a party to the Metropolitan College Agreement. "Metropolitan College" means a nonprofit consortium that includes educational institutions located within the Commonwealth and the qualified taxpayer as members. A "Qualified Taxpayer" means any taxpayer who, on June 26, 2009, is a party to the Metropolitan College

Consortium Agreement approved November 5, 2005. The purpose of Metropolitan College shall be to provide postsecondary educational opportunities to employees of the qualified taxpayer as part of a combined work and postsecondary education program. Having been given this authority, the BSSC approved its second MCTC to United Parcel Service (UPS) during FY 2011-12 in the amount of \$2,938,247.73.

Partnerships

In order to enhance the workforce delivery system in the Commonwealth, the BSSC continues to strengthen its partnerships with the Education and Workforce Development Cabinet, the Kentucky Workforce Investment Board (KWIB), the Labor Cabinet, and the Kentucky Community and Technical College System (KCTCS) to leverage our resources and provide quality services to our business and industry partners in the Commonwealth.

This past year the KWIB initiated the Work Ready Communities initiative and certified the first counties as being "work ready" on February 16, 2012. Counties are certified as "work ready" based upon the quality of their workforce as measured by criteria established by the steering committee and approved by the KWIB board of directors. BSSC staff served on both the Work Ready steering committee and the application review team.

Quality Customer Service

The Kentucky Cabinet for Economic Development and Bluegrass State Skills Corporation are committed to providing excellent customer service and continuous improvement. Prior to closing out a project, a company must fill out a Performance Evaluation Questionnaire. During FY 2011-12, the BSSC received and reviewed 102 Performance Evaluation Questionnaires. Ninety-nine percent of the companies stated they would recommend BSSC to others in the future.

On behalf of the Bluegrass State Skills Corporation, we respectfully submit this report as an accurate accounting of the activities of the BSSC for FY 2011-12.

Rita L. Combs-Sterrett
