Active projects are those that have received preliminary or final

approval and are being monitored for compliance. Projects that were active as of January 1, 2008, but have become inactive since that date will also be included in the Database.

Project information contained in the database is based on estimates and projections provided by the incentive recipients prior to project completion. While recipients are required to meet statutory minimum standards for jobs and wages (KRS Chapter 154), they are not always legally bound to meet their own projections, which often far exceed the statutory minimums. Recipient projections and estimates are neither confirmed nor updated in this database during the life of the project. The project status is subject to change during the life of the project based upon actions of KEDFA/BSSC or the recipient.

The information provided in the Database is believed to be accurate, but is not warranted and is for informational purposes only.
