**KENTUCKY ECONOMIC DEVELOPMENT FINANCE AUTHORITY
TIF REPORT - PRELIMINARY APPROVAL**

Date: August 29, 2019
Applicant: City of Paducah, Finance Department
Project Name: Paducah Downtown Riverfront Redevelopment Project
City: Paducah **County:** McCracken
Program Type: Mixed-Use Redevelopment in Blighted Urban Areas
TIF Term: 20 years **DFS Staff:** Kylee Palmer

Project Description: The City of Paducah, along with its county and regional partners, plan to redevelop 315 acres of Paducah's downtown riverfront to attract new tourism, recreation, and economic development opportunities. The TIF District includes approximately 200 acres of city-owned lands underwater to support water dependent uses and shoreline improvements, and approximately 115 acres of upland mixed-use redevelopment and public infrastructure investment. The Project will increase capacity for downtown visitors while creating a more welcoming environment offering a variety of entertainment options and attractions. The reimagined riverfront will further enhance the attractiveness of Paducah as a site to host a variety of events, and the additional boating capacity will allow for more out-of-town boating traffic to dock downtown. The overall environment is expected to make Paducah a more attractive location for businesses and their employees.

The Project is expected to include additional hotel rooms, restaurants, retail stores, conference and event space with supportive food services, a museum, a reimagined art house/theatre, and manufacturing/processing space.

The proposed development is expected to include:

- 100-room limited service hotel (80,000 square feet)
- 47 boutique hotel rooms (28,215 square feet)
- 266,540 square feet of residential (204 units)
- 77,653 square feet of restaurant/entertainment space
- 34,075 square feet of retail space
- 130,000 square feet of manufacturing space
- 42,540 square feet of public building
- Public infrastructure improvements
- Surface lot parking

Total estimated cost of the project is approximately \$156.3 million, excluding financing.

Construction is expected to begin in 2020 with completion in 2025.

Certification: Brandi Harless, Mayor of the City of Paducah and Craig Clymer, County Judge Executive, have both certified that the Paducah Downtown Riverfront Redevelopment Project is not reasonably expected to be developed without public assistance, including but not limited to tax increment financing.

Impact:

This Project could generate significant new economic impact to the area and the Commonwealth. The applicant estimates that during construction, the Project will have an effect of \$258.9 million and support an estimated 1,935 jobs. After the Project is complete, the applicant estimates that over 20 years, it will support a total economic impact of \$1.9 billion and 1,169 full-time jobs. The Project could generate a total impact occurring within the anticipated development area of \$95.9 million of state tax revenues and \$19.8 million of local tax revenues.

Public Infrastructure:

Infrastructure costs total approximately \$56.4 million:

- Land preparation
- Public buildings/structures
- Sewers/storm drainage
- Curbs, sidewalks, promenades and pedways
- Roads
- Street lighting
- Provision of utilities
- Environmental remediation
- Public space or parks
- Parking
- Public landings
- Fountains, benches and sculptures
- Riverbank modifications and improvements

Preliminary Approval:

By granting preliminary approval, KEDFA would enable staff to begin working with the Office of State Budget Director and the Office of Financial Management to create criteria for which a consultant would review the project feasibility including financing, appropriateness for the use of the TIF program and potential increments, and whether the project represents a net positive impact to the Commonwealth.
